Weekly COVID-19 Surveillance Report

Ohio Governor DeWine announced on August 27, 2020 an Ohio Department of Health order that requires K-12 schools to establish a mechanism for parents and guardians to report confirmed cases of COVID-19 among their children. In that order is the responsibility of each district to make publicly available non-identifying information* about positive COVID-19 cases.

Toledo Public Schools’ coordinator for Health Services is responsible for tracking all COVID-19 positive cases and reporting confirmed cases to the Toledo Lucas County Health Department.

01/11/2021-01/17/2021	This Week’s Numbers	Changes from Last Week	Total Population Size	Percentage of Population
Employees Quarantined	11	-23	4205	.262%
Students Quarantined	NA	Na	22,342	N/A
Employees Isolated	12	-23	4205	.285%
Students Isolated	NA	NA	22,342	N/A

Definitions:

- **Quarantined**
 14 days is the length of time that anyone who has been in direct contact with someone who tests positive for the COVID-19 virus must quarantine as symptoms can start anywhere from 2 -14 days after exposure.
- The quarantine period starts on the last day the person was known to have had contact with a person who tests positive. The quarantine may end only after 14 days if the individual was all symptom-free the entire time.
- **Isolated**
 Individuals with symptoms who:
 - were screened and are at home
 - had a positive test or had a probable diagnosis.

The school district cannot disclose specific case information due to FERPA/HIPAA laws.
