### **Weekly COVID-19 Surveillance Report**

Ohio Governor DeWine announced on August 27, 2020 an Ohio Department of Health order that requires K-12 schools to establish a mechanism for parents and guardians to report confirmed cases of COVID-19 among their children. In that order is the responsibility of each district to make publicly available non-identifying information\* about positive COVID-19 cases.

Toledo Public Schools’ coordinator for Health Services is responsible for tracking all COVID-19 positive cases and reporting confirmed cases to the Toledo Lucas County Health Department.

<b>03/22/2021-03/28/2021</b>	<b>This Week’s Numbers</b>	<b>Changes from Last Week</b>	<b>Total Population Size</b>	<b>Percentage of Population</b>
<b>Employees Quarantined</b>	12	+7	4,205	.285%
<b>Students Quarantined</b>	117	+75	22,342	.524%
<b>Employees Isolated</b>	11	+5	4,205	.262%
<b>Students Isolated</b>	25	+13	22,342	.112%

**Definitions:**

- **Quarantined**  
 14 days is the length of time that anyone who has been in direct contact with someone who tests positive for the COVID-19 virus must quarantine as symptoms can start anywhere from 2 -14 days after exposure.
- The quarantine period starts on the last day the person was known to have had contact with a person who tests positive. The quarantine may end only after 14 days if the individual was all symptom-free the entire time.
- **Isolated**  
 Individuals with symptoms who:
  - had a positive test or had a probable diagnosis.

**The school district cannot disclose specific case information due to FERPA/HIPAA laws.**
