Weekly COVID-19 Surveillance Report

Ohio Governor DeWine announced on August 27, 2020 an Ohio Department of Health order that requires K-12 schools to establish a mechanism for parents and guardians to report confirmed cases of COVID-19 among their children. In that order is the responsibility of each district to make publicly available non-identifying information* about positive COVID-19 cases.

Toledo Public Schools’ coordinator for Health Services is responsible for tracking all COVID-19 positive cases and reporting confirmed cases to the Toledo Lucas County Health Department.

September 6, 2020	This Week’s Numbers	Changes from Last Week	Total Population Size	Percentage of Population
Employees Quarantined	14	+12	4,381	.320%
Students Quarantined	0	0	22,342	
Employees Isolated	4	-1	4,381	.091%
Students Isolated	0	0	22,342	

Definitions:

- **Quarantined**
14 days is the length of time that anyone who has been in direct contact with someone who tests positive for the COVID-19 virus must quarantine as symptoms can start anywhere from 2 -14 days after exposure.
- The quarantine period starts on the last day the person was known to have had contact with a person who tests positive. The quarantine may end only after 14 days if the individual was all symptom-free the entire time.
- **Isolated**
Individuals with symptoms who:
 - were screened and are at home
 - had a positive test or had a probable diagnosis.

The school district cannot disclose specific case information due to FERPA/HIPAA laws.
